

Collaborative Working Towards Greater Community Care

Social Networking

The greatest thing that everyone has to give is each other. The joy of getting to know new faces and developing new friendships is something that WeAre**1** is totally committed to within the Borough of Hounslow and beyond.

Our social networking groups are designed to facilitate all of the social interaction and help people to develop a better sense of self esteem and self worth in a safe and relaxing environment. We are all able to share the skills we have as individuals, and in so doing encourage social inclusion for those people who are not so confident in group situations.

The aim is to be able to come along and enjoy the relaxed atmosphere that has been created by the team, and maybe have a cup of tea or coffee and just have a bit of you time in the presence of good company.

We are all able to learn from each other, and by attending our social networking groups, people will get to know each other and then go forward to attending some of the other activities we have on offer. The fact that all disabilities are catered for is both ground breaking and innovative in itself. Everyone deserves the chance to socialise and not be excluded because of circumstances, disability, or lack of inspiration.

Our name says all that we want it to say.

If we are all together, WeAre**1**, and that is our greatest objective.
