

**Collaborative Working Towards Greater Community Care**

## **Volunteering Opportunities**

WeAre1 can only exist through the dedicated work of the volunteers who help us maintain a level of service that is second to none. Without their help and support we would be unable to function properly or provide all the necessary help and support that our local community deserves.

We would like to offer every member of society the chance to participate in becoming a volunteer for our organisation or perhaps for one of the other organisations that we work with. There are many activities that need the support of volunteers and everyone has something to give that will impact positively on the goals we have set ourselves for the future.

The variety of skills that the community can offer is quite breathtaking. If you feel that you have certain skills that would enhance our organisation, or perhaps wish to gain and develop new skills for your own portfolio, then we would like you to approach us with the view to coming in for an interview.

We have volunteers who have worked alongside us for many years, and the level of knowledge and understanding that they have gained and put into use is remarkable.

Every prospective volunteer will have to supply us with two references and we will ask that a C.R.B. reference is in place and up to date. This is because we are an organisation that works with vulnerable people, and government legislation dictates that this is an essential requirement for any individual who would like to work within this sector.

If you feel that you have something to give, and you would also like to learn new skills by becoming a volunteer, please contact us and we will e-mail you one of our volunteer forms to see our list of requirements.
